# SquareLED - Digital Precision LED Profiler

The new SquareLED Digital Precision LED 150W Profile Spot is another innovation of the SquareLED range.

As with all products in this range the focus is durability, lowest power consumption and best projection properties, retaining all the visual and functional features of a conventional profiler.

The Digital Precision is a must-have for studios, theaters and architectural applications where it depends on cost, durability and optimum heat management.

750 x 300 x 300 mm

13 kg

## Technical Data:

- » Very low power consumption
