## TriColor IP65 14x3W

The SquareLED TriColor 14x3W IP65 is a RGB wash light in a well designed, weather-resistant aluminum die-cast housing. The unit is equipped with 3W High Power 3in1 LEDs, which means colour mixing behind the lens and the infamous "jelly" effect is eliminated.

The high-quality LEDs guarantee a high light yield, low consumption and long lifetime.

Each color can be dimmed independently - beautiful color gradients are guaranteed.

Built-in programs for strobe and gradients are accessible via DMX.

235 x 165 x 300 mm

3,7 kg

### Technical Data:

- » RGB color mixing for more to 16.7 million colors
- » protection class IP 65
- » Linear Dimming 0% -100%
- » Strobe
- » LED display with 4 buttons
- » Control signal: DMX512
- » Control mode: stand-alone / DMX / Master-Slave function
- » 3-pin XLR connectors in / out
- » natural convection cooling, no need for a fan
- » Output voltage: DC32V
- » Consumption: 52W
- » 3-channel or 7-channel operation
- » Color: black (white optional)
- » Anti-current intention: 1.5KV
- » Insulation resistance:> 2MΩ
