SquareLED Bajazzo CMY Colour Changer

The SquareLED Bajazzo CMY Colour Changer has 8 built-in DMX channels, CMY color mixing system with independent dimming function.

No external silicon box system is needed, DMX 512 signal control is adopted, forced air cooling enhances system stability and durability, with digital setup of address code.

This product acquired multiple patents of product design and can be used in combination with our SquareLED Hi-Precision Profile spot series and also with conventional Profile spots such as ETC Source 4.
