## „Mr. Beam“

### 9x10W Quadcolor LED PAR

The SquareLED “Mr. Beam” LED PAR shows a real SPOT characteristics by its beam angle of 10°.

The impressive light output and smooth dimming effect are achieved by using high quality 9x10W CREE Leds and original CREE lenses. The 4in1 Quadcolor technology allows an absolute pure white and numerous pastel colors.

A refresh rate of 4000Hz guarantees a flicker-free operation and makes the unit suitable for use in Studio applications. The unit in classical PAR 64 housing is extremely quiet and use of barndoors is also possible.
