Spectrum

24x10W RGBAW 5in1

The SquareLED Spectrum now offers also for the outdoor area the whole spectrum of colors through its RGBAW LED assembly. 24x10W high power LEDs produce an exceptionally bright and homogeneous projection.

By the 5in1 technology the colors are mixed already behind the lens. Addressing and program selection made on the clear LCD display on the rear panel.

The sturdy double yoke ensures a strong position. A high-quality, ergonomic housing design round off the device.

Technical Data:

- » Consume: 240W
- » Constant current driver: 500MA
- » PWM Dimmer: >400HZ
- » Life span: 50000-100000 hours
- » Control Signal: DMX512, auto run
- » Control mode: stand alone, dmx512, master slave
- » Channel: 4CH, 5CH, 9CH, 10CH
- » Color effect: R, G, B, A, W, Mixing
- » Function Effect: dimmer, strobe, eotic, gradual change
- » Cooling mode: fan cooling
- » Output voltage: DC48V
- » Anti-electricity intension: 1.5KV
- » Insulation Resistance: >2MΩ

 IP65	 13 kg
 325 x 272 x 351mm	 AC 100V-264V/50-60HZ
