

Broadcaster 200W
LED Fresnel 3200K – 5600K

Broadcaster 200W

LED Fresnel 3200K – 5600K

Finally an LED Fresnel with variable color temperature control - the SquareLED Broadcaster can regulate from 3200K - 5600K.

This model opens up for professional users many new opportunities - as both halogen lamps and daylight lamps are fully replaceable now by a single LED unit.

The Broadcaster is equipped with 200W LED power and has a beam angle of 15° - 60°. The device can even meet the high demands in television studios:

Absolutely flickerfree and by the passive convection cooling also absolute noise free. The barn door is always included.

	15°-60°		200W LED
	370 x 360 x 600 mm		6,8 kg
	DC24V (AC100-240V 50/60 Hz)
