

Color Designer 18x12W
RGBAW+UV (6in1), IP65

Color Designer 18x12W RGBAW+ UV (6in1), IP65

By RGBAW + UV color mixing these LED bar can meet even the highest demands on imaging and dimming. The light field is extremely homogeneous and the color mixing very accurate. In the lower dimming range the LEDs start to glow very smoothly, no visible steps can be noticed. For the lamphousing special attention was paid to the functionality.

The legs provide an opening through which the cables can be placed and so are not visible when several bars are lined up. Additional two Camlock connectors on the back side with which the bar is easy to install, as well as several bars can be connected together easily.

 AC 100-240V 50/60Hz	 IP65
 18 x 12W RGBAW +UV 6 in 1 LEDs	 25° or 40°
 110 x 14 x 10 cm	 8,8 kg

Technical data:

- » Dimming: 0-100% linear dimming
- » Strobe: 0-25 times/second, flicker free
- » Operation mode: DMX512 / master-slave
- » Channel: 7/10 channels
- » Rated power: 120W
- » Ambient temperature: -20° - 40°
