This stand is suitable to mount only sound, lighting and video devices. The product’s guarantee becomes invalid if the product is damaged as a result of failure to observe these operating instructions. No liability will be assumed for any ensuing damage. The stand must be checked regularly carefully for damage, deformation and corrosion. If any part of the stand shows any damage, the part is not allowed to be used. For safety and licensing reasons (CE), it is not permitted to change or modify the product. The warranty will be invalid. The stand is intended for indoor use only. Please protect the stand from any contact with people, because the stand may be able to tip over. The stand must not be exposed to wind which are able to blow the stand over. The focus of the ballast must be within the dimensions of the baseplate. Exceeding the maximum load of the stand can lead to tilting. The stand can only be built on a flat equal surface. A stand with load should not be shifted because of risk of tipping.

www.lth-gmbh.de
1. The baseplate and bottompiece will be connected with 4 screws.

2. On top of the bottompiece the endpiece or extensions can be attached without any connection material.

3. The displayholder or tube will be screwed on to the endpiece.

4. The device must be mounted on a professional way.

5. Connection cable can be fed through the tubes and extensions depending on the size.
