

MRX 18x12W RGBW
4in1 Matrix Bar, IP65

MRX 18x12W

RGBW 4in1 Matrix Bar

The SquareLED MRX 18x12W RGBW 4in1 Matrix Bar is a slim outdoor bar with individual control of 18 High Power LEDs. The bar is equipped with powerful RGBW LED chips of 4in1 technology and allows light designers a variety of effects and programming options.

For the lamphousing special attention was paid to the functionality. The legs provide an opening through which the cables can be placed and so are not visible when several bars are lined up. Additional two Camlock connectors on the back side with which the bar is easy to install, as well as several bars can be connected together easily.
